Connecting The Dots 2015 LBNL, Feb. 9-11, 2015 Final Remarks

Practical

- This room booked all afternoon
- Some people asked to see some labs / detector hardware R&D
 - If interested please stay behind now (don't run off)
- Practical questions?

Future

- Several options discussed
 - Another CTD workshop
 - where? When? Who?
 - A new activity under the HEP Software Foundation
 - Who follows this up?
 - A Kaggle challenge
 - Paolo Calafiura offered to follow up

- Proposal? set up a followup phone meeting in ~1month (schedule via doodle poll). Those interested in working towards a future activity should participate and have something to say

Thank you for coming to Berkeley and making this an interesting workshop!
