

Closing Remarks

- Thank you ALL for the participation at today's event!
 - All panelists and speakers
 - All of you who connected (70 - 100+ persons at all times!)
- A few interesting items certainly emerged
 - Today was not meant for going in depth, but for raising interest / questions
 - Please don't be shy in following up on specific topics, reaching out panelists, speakers or any of us!
- Planning a follow-up workshop - more information will come later
 - If you have ideas on how you'd like this workshop to be, let us know
 - We plan to use this second event to go deeper into some of these topics (and some we could not fit in this event)
