

15th International Workshop on Boosted Object Phenomenology, Reconstruction, Measurements, and Searches at Colliders

Tuesday, 1 August 2023

Electroweak Physics - Auditorium (10:40 - 12:00)

-Conveners: Katy Grimm; Mario Campanelli

time	[id] title	presenter
10:40	[135] Measurements of jet substructure in top quark pair production in ATLAS	RENNIE, Adam
11:00	[132] Searches for BSM Higgs with the CMS experiment	MAKSIMOVIC, Petar
11:20	[88] Determination of Higgs boson properties and searches for new resonances using highly boosted objects with the ATLAS experiment	BHATTARAI, Prajita
11:40	[124] Boosted Higgs boson production via vector boson fusion with the CMS experiment	DICKINSON, Jennet
