

15th International Workshop on Boosted Object Phenomenology, Reconstruction, Measurements, and Searches at Colliders

Wednesday, 2 August 2023

Multidifferential Measurements - Auditorium (11:20 - 13:00)

-Conveners: Peter Jacobs; Jennifer Roloff

time	[id] title	presenter
11:20	[108] Multi-differential Jet Substructure Measurement in electron-proton Collisions	MIKUNI, Vinicius
11:40	[123] Studying jet substructure and hadronization at LHCb	CHAHROUR, Ibrahim
12:00	[94] Probing the parton shower with multi-differential jet substructure measurements in pp collisions at STAR	SONG, Youqi
12:20	[101] Probing higher order DGLAP evolution with Energy Correlators and OmniFold	PAN, Jingjing
12:40	[113] Machine learning-assisted measurement azimuthal angular asymmetry of soft gluon radiation in positron-proton collisions	TORALES ACOSTA, Fernando
