

15th International Workshop on Boosted Object Phenomenology, Reconstruction, Measurements, and Searches at Colliders

Thursday, 3 August 2023

Groomed measurements - Auditorium (09:00 - 10:20)

-Conveners: Mateusz Ploskon; Aaron Angerami

time	[id] title	presenter
09:00	[118] Measurements of the substructure dependence of jet quenching in PbPb collisions	HANGAL, Dhanush
09:20	[110] Measurement of groomed event shape observables in electron-proton collisions	JACOBS, Peter
09:40	[104] Novel jet substructure observables and techniques with ALICE	Dr EHLERS, Raymond
10:00	[128] Jet substructure measurements using jet declustering in CMS	BARRERA, Cristian Baldenegro

Groomed measurements - Auditorium (11:00 - 12:00)

-Conveners: Ian Moul; Dhanush Hangal

time	[id] title	presenter
11:00	[114] Recent studies of jet-medium interactions with ALICE	LESSER, Ezra
11:20	[83] Jet substructure studies for Relativistic Heavy Ion Collider with the sPHENIX detector	FEDKEVYCH, Oleh
11:40	[112] Elucidating QCD using charm-tagged jet substructure with ALICE	Dr DHANKHER, Preeti
